

# PET FIBERS

## HAY

Hay is an essential ingredient in the diet of small pets such as rodents and rabbits. The high dietary fibre content assists healthy digestion of the animals. In addition, it helps keep their teeth healthy and short. The carefully selected hay from the Pet Fibres range fully supports these needs.

Available in a compact 10kg bale.

### Composition

100 % natural meadow hay

### Properties

- Dry, dust extracted and sifted twice.
- 100% natural.
- Hay with long fibres, low in protein and rich in cellulose.
- Pleasant, natural smell of grass.
- Cut in 4 portions of 2.5 kg

### Analysis

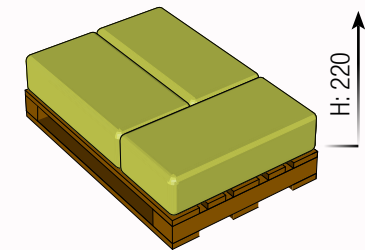

Dry matter (DM)	90%	Calcium	0,4%
Protein content	8%	Phosphorus	0,2%
Crude fibre	28%	PH-value	6,6
Crude ash	7%	Weight	10kg
Energy value	2300 kcal/kg	Fructose content	< 3%

### Packaging

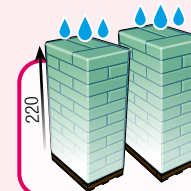

Kg/Bale	Bale dimensions (l x w x h)	Bales/Pallet	Pallet	Cover
10	80x40x22	max. 33	Euro	Yes

### Ideal for stacking

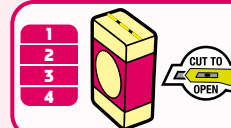

Euro: 120x80

### Rainproof

Protection against rain and wind

### Cut open at top
