

AGRI FIBERS

CHOPPED WHEAT STRAW

Composition

100 % chopped wheat straw, length 1 - 7cm

Properties

- Minimal dust
- Low in energy, so ideal for cows in the dry period and for older calves to prevent fattening
- Less hard and coarse straw, which is better for calves during rearing
- Low iron content, which is ideal for white and pink meat calves
- Low cation content, high N and P content

Tips for use

- Beef cattle and calves: 100 – 300 grams per cow per day
- Dairy cattle: 100 – 1000 grams per cow per day

The quantity per cow per day depends partly on the roughage and concentrated feed used
